HOW TO USE THIS FILE

Use this file to add title and credits (if you need) to your video artwork.
Under this layer, there is an example, look at.
Take care don't change font family, size, colors, uppercase & lowercase, and position too!
When type your sense, leave a space before and after the word, so as to space the brackets.
Leaves unchanged the central alignment of all texts!
The title must be white and all uppercase.
The sense must be red and all lowercase.
Type your name and surname, or your artname (not both);
they must be white and lowercase with capitals.
The credits (if you add) must be red and lowercase, with the exception of names,
that can be lowercase with capitals.
When ready, save the file like image at high resolution.
The resulting image must be placed at the beginning of the video, for a time of 7 seconds.
Don't add other title and/or textual informations at the start of artwork!
You can credits and other on the tail of video.

Thank you!
